Horsemen are Engerty Awaiting the Action of the Legislature on the Measure-Horses Getting Rendy for the St. Asaph Meeting, which Opens March 16-An Interesting Letter from California-Entries for Alexander Island and New Orleans,

Horsemen in New York State will be in a state of uncertainty and doubt until the Legislature takes some action on the Gray bill, and something will undoubtedly develop at Albany within a short time now that the Committee on Codes has given a last hearing on the question to the turf delegations. Men who have for tones invested in stock farms or race horses are unessy and the verdict, no matter whether favorable or unfavorable, will be a relief after months of anxiety. The opposition against the measure, as represented by Comstock et al., was expected, and it was no surprise to find the emissaries of Peter De Lacy skulking behind the cost tails of St. Anthony.

A large number of turfmen are holding off un-til something definite is known about the racing question before shipping their thoroughbred to the West or South. It is safe to say that more than a thousand horses, among them the within thirty days if the Gray bill failed to be come a law. The bill will come up for a second reading some day this week, or the earl part of next week, and then some idea of the outcome may be formed. It is said that the warring factions in the trot division will be made to smoke th pipe of peace. Something in the nature of ruce should be patched up, for, as THE St has all along maintained, it is a time when almost any sacrifice should be made for the sak of harmony. Those who should know say the there is no hope for the bill unless some sort of an arrangement can be arrived at whereby the Saratoga track, which is under the jurisdiction of the Western Turf Congress, will receive a

There are several hundred head of horses now quartered at St. Asaph getting their final preparation for the meeting of the Virginia Jockey Club, which will begin on March 18. The stables of Messrs. Miller, A. Lakeland, and Chand-ler, which have wintered at Brighton Beach, were shipped vesterday, and James McLaughlin's horses will go down some day this week. Father Bill Daly has been on the battle ground for a couple of weeks now and has been sending his horses along in carnest. There is little fear that Daly's horses will be short of work. Jack Bennett's string, J. Boden's, W. B. Jennings's, and those of other owners are ready for the word. Treasurer J. N. Kirk writes from Alexandria that the track is better than It was at any time last fall. Several hundred lt was at any time last fall. Several hundred loads of sand have been spread over its surface, and it is now both safe and fast. Ed Kearney, the Brockin Handicap candidate, is getting his early work at St. Asaph, and it the chestnut coit wins the big prize all Harlem will have money to burn. Last fail Oliver was telling his friends that he would be satisfied if he could get his poil in the handicap at 105 pounds or under. "Captain Absolute" doesn't regard Ed Kearney as highly as the Harlem boat builder does, and consequently he will have only 97 pounds to put up.

practice on the campus, and the showing made augured well for the prospects of 1805. The chief weakness of the team will evidently be in the light weight of the players, as the stick handling is rather above the average shown so early in the past seasons. About thirty candidates made the mud fly last Wednesday, and at times the exhibition was very pretty. On Thursday an indoor game with some old lacrosse experts of the Orange A. C. was played in the tennis building of the O. A. C. at lirick Church. The small space and poor light made the play of both teams very inaccurate, but occasional displays of brilliant work kept the audience enthusiastic. The final score after an hour's brisk work was 10 to 7 in favor of the Stevens men.

The management is trying to make arrangements with President Freedman of the New York Basebail Club to hold some of the more important games of lacrosse at Manhattan Field, so as to make them more accessible to New Yorkers. handling is rather above the average shown so

The Class Match, one of the peculiar handicap competitions of the Seventh Regiment's indoor riffe-shooting season, was decided on the armory range last Saturday night. The conditions of the competition are seven shots standing and seven prone at the 200 and 500 yard ranges; two entries allowed and all scores of the same numerical value constitute a class; first prize to the man making the best score in the highest class, second prize to the man making the best score in the next highest class, and in like manner through to the lifth class.

Owing to these conditions, Corporal Stevens, who made the remarkably high score of 69 for the fourth time this season, did not get a prize. The winners were:

Quite a large crowd of sporting men saw the finish fight with small gloves on Saturday night which was successfully pulled off just over the pionship was played at Wallace's Ridgewood | Brooklyn city line in Queens county. The principals were Barney Lynch of Newark, and Dick Phelan of Brooklyn. Both weighed in below the limit set for the match, 131 pounds, at 6 o'clock in the evening, Lynch being a little the heavier,

in the evening, Lynch being a little the heavier. Capt. Jack Mace, Ridgewood A. C., was the referee.

The first round was productive of only light sparring, but in the second the lads warmed up to their work, and Phelan got home some pretty two-handers that set the crowd to applauding. In the third round Lynch began to do some of the fast fighting that he is capable of, and cus l'helan's right eye with a hot left-hand jab. Phelan came up the fresher for the fourth round and cushed his man all over the ring. Lynch was floored by a savage right-hander and badly punished about the body. Lynch assumed the aggressive in the fifth round, but it was only momentary, for Phelan used both hands very swiftly, and Lynch was glad to break ground and run around thering. The latter was knocked out in the eleventh round with a right-hander flush on the chin.

The Scots' Boxing Show.

The boxing show of the Scottish-American A. C. of Jersey City, held in their gymnasium on Saturday night, was well attended. The programme which attracted the crowd consisted of three special bouts. The first bout was between John Quindy of Englewood, N. J., and Pat Haves. They fought at 135 pounds. Neither possessed any science. They resorted to buildog

possessed any science. They resorted to buildog tactics all through the six rounds, and at the end each was in a pitiable condition, being literally covered with cuts and bruses on the face, neck, and chest. The referee gave the bout to Hayes.

The second bout ended abruptly and rather amusinely. The rival boxers were Tom Gaffney, a miner from the coal regions of Pennsylvania, and Frank Pinto, said to be the Italian champion of this city. They fought at 120 pounds. After a few sharp exchanges Gaffney landed a stinging blow with his right hand on Pinto's ear, which sent him to the floor. He never arose again, but muttered something in his native tongue. Gaffney, of course, was declared the winner.

The final bout was between Charley Burns, who halls from Cincianat, and Steve Bloom of the Scottish-American A. C. They weighed in at 140 bounds. The pair were very evenly matched, and fought rather cautiously all through the six rounds. At the end neither looked any the worse for the conflict, and a draw was the verdict.

Sullivan Is Going to His Farm.

Boston, March 3 .- John L. Sullivan reached Roston to-day from the South. He says that most of the stories sent from that section about him were not true. He had no intentions, he said, of going to Cuba or Spain, or "doubling" up with a temperance forator. He is disgusted with the theatrical business, and hereafter proposes to look after his farm.

Gossip of the Courts,

Phil Casey thinks that, whenever possible, matches should be played about the middle of the week, so as not to interfere with the regular "club day" programmes. Ex-Alderman Dunne and Dr. Smith are not prepared to accept their defeat as final by P. Barrett and John Malcolm at the Brooklyn Club's court on Feb. 24. They want a return match on next "club day." P. Scott and P. Flaherly of the Jersey City Club cleverly defeated E. Lawlor and P. Kelly of Green-point in the final series of their stake match on "club day." T. Langan and E. Lawlor now want to play the winners under similar conditions. Among the visitors to the Brooklyn Club's court on "club day" was J. H. Riordan, one of the most enthu-shastic supporters of handball in Philadelphia. Rior-dan asya there is sore need for a good court in the Quaker City since the old Carpenter street resort was aboliahed.

James Dunne, Jr., the amateur champion, paid a fly-ing visit home from Brown University last week. He stripped for a match at the Brooklyn Club's Court on "club day" and showed fine form, although some-what handicapped by a right hand which had been spiked in baseball practice.

spiked in baseful practice.

Jerry McMahon was unable to keep his engagement with the "Spaniard" on "club day," owing to a decile footbal date. He will visit Manhattanville next Thursday afternoon, at 1 octock, prepared to play if his opponent is ready. The uptown officials are requested to notify the Brooklyn Club as to whether this arrangement will suit.

NEW YORK'S NEW CATCHER.

EFFORTS MAY BE MADE TO SECURE BUCKLEY, DAILEY, OR MURPHY.

Pitcher Westerreit Gives His Reason Why

He Has Not Signed a Contract-National League Teams Will Not Be Permitted to Play Sunday Games in This Vicinity, President Freedman of the New York Club left this city on Saturday afternoon for Jacksonville. Before going he said that all the players had signed except Westervelt and Wilson, who could hold off as long as they pleased, Freedman has made two attempts to trade Wilson off for another catcher, but as the managers approached did not appear to be anxious to secure him, the proposed deals fell through. Manager Davis, it is said, would like to make a dicker for Buckley, the Philadelphia catcher, Irwin has openly stated that the Philadelphia's catchers will be Clements and Cross, which makes Buckley the third backstop, to say nothing of young Grady. Buckley is Rusle's old catcher. Buckley bad some trouble with his arm while with St. Louis two years ago, but last summer he caught and threw finely her of the Philadelphia team. The New York Club would also like to have Con Dailey of the Brooklyns or Morgan Murphy of the Cincinnatis, and the wires may be pulled for either

Pitcher Westervelt is very stubborn about signing, and declares that he will quit the dia-mond before submitting to the club's terms. To THE SUN reporter the ex-amateur said yesterday:

"The reason I have refused to sign is that I am asked to play ball for considerably less than I got inst season. If I had a chance to sign for the same salary I received a year ago I would do the same salary I received a year ago I would do so willingly, but I will not stand a cut. I managed to live pretty well before I played professional ball, and I can do so again. I have made up my mind now not to play at all. If I sm traded off it will do ho good, for I'll refuse to sign with any League club. I have a good position in a business house down town, and I have had a number of offers to play ball in semi-professional and athletic club teams hereabouta. I think I am worth what I got a year ago."

At this rate, Westervolt will not be seen again in a New York uniform. President Freedman and Manager Davis believe that in Rusie, Meekin, German, Clarke, and Knauss, the team is sufficiently equipped with pitchers. Davis does not believe in having too many twirlers, and thinks five are more than enough.

Four weeks from next Wednesday the local exhibition season will open at the Polo grounds, the New Yorks meeting the ancient and honorable Jaspers of Manhattan College. After that the local leaguers will play daily games with all the leading college teams. There is an unusual amount of interest displayed by the latter over the probable winner of the trophy offered by the New York Club to the college nine making the best showing against Davis's men. Naturally, from present indications, it looks as if the contest would narrow down to the teams of Yale, University of Pennsylvania, and Princeton; but Cornell and Brown may turn out to be dark horses. so willingly, but I will not stand a cut. I man-

University of Pennsylvania, and Princetoni but Cornell and Brown may turn out to be dark horses.

In regard to the story that F. A. Abell of the Brooklyn Club tried to buy Fred Pfefier's release during the recent League meeting, President Byrne says that the offer was made simply to find out whether the Louisville people were looking for money, or merely showing their friendship for Pfefier in advocating his cause. Byrne says he will make a statement about the case in a few days.

Sunday ball playing in this vicinity by League teams has received a several persons who have built new grounds near Long Island City, and have secured a permit for Sunday games, applied to the New York and Brooklyn clubs for permission to arrange games with League teams that play on the Sabbath. The St. Louis, Louisville, Cincinnati, Chicago, Washington, and Baltimore clubs were slated for games at the new grounds, but when Freedman and Byrne both declined to allow such contests under the League's territorial limit rule, of course negotiations were blocked. Dave Fouts and His Men Arrive at Savannah

SAVANNAH, March 3 .- The Brooklyn Baseball team arrived here early this morning. All of the men were seasick and felt pretty sore as the result of the voyage. The next three days, so Manager Foutz states, will be devoted to light practice. On Thursday, Friday, and Saturday practice. On Thursday, Friday, and Saturday the regular nine will be pitted against the other members of the club, with a local pitcher. On Monday, Tuesday, and Wednesday of the succeeding week the Brooklyns and Pittsburghs will play here. The Brooklyns will then go to Charleston for three games with the Washingtons. They will return to Savannah to playthree more games with Pittsburgh. They will then go to Augusta. Griffin, Corcoran, Grim, Daub, and Treadway are expected to arrive here to-morrow or on Tuesday by rail.

TELEGRAPHERS MEET.

An Organization Perfected Yesterday at the Clarendon Hall Convention. The American Telegraph Union was formed

resterday in Clarendon Hall at a convention of elegraphers called for that purpose. C. E. Thompson was temporary Chairman of the convention, and H. Robertson acted as Secretary. About eighty telegraphers were present, nine of whom, representing the Postal and Western Union companies and the press operators, we

whom, representing the Postal and Western Union companies and the press operators, were selected a committee to promote the Government ownership of telegraphs.

Charles W. Matchett, the candidate of the Socialist Labor party for Governor at the last election, made a speech in which he said that the Government ownership of telegraphs would improve the conditions of telegraphers and increase their wages. He said that a telegraph company was originally capitalized at \$10,000,000,000, and watered its stock until it could pay a dividend of 6 per cent. on \$100,000,000. This, he said, represented so much money diverted from the pockets of employees and others, and such a thing would be impossible if the Government controlled the telegraphs.

The following Board of Directors was appointed: R. L. de Akers, W. O. Eastlake, J. P. Regan, C. E. Thompson, T. J. Dunn, D. L. Bunell, J. J. Whalen, T. J. Casey, and J. S. Newman. This Board will have power to elect a Chairman and arrange for future meetings.

Similar meetings were held yesterday in Chicago, Philadelphia, Baltimore, Boston, and other cities. A national organization will be formed to push the agitation for Government ownership of telegraphs.
